JUNE - 2024

A RECAP OF OUR LATEST ENDEAVORS!

Monitoring in AI/ML Networks Based on SONiC

Ready to dive into the world of AI/ML networks? So are we! Catch us at the SONiC India Workshop 2024 at Microsoft's Hyderabad campus. Our very own PaIC will be taking the stage to drop some knowledge insights. Mark your calendars and get ready to have your minds blown!

SONiC Workshop India 2024
September 4, 2024 | 9AM-5PM IST | Microsoft Campus, Hyderabad

Welcoming a New Customer: HFCL

We are pleased to welcome HFCL as our newest customer! We've got some exciting projects lined up, including migrating their network and testing and validating their new product line for switching and routing. We're rolling up our sleeves and ready to make some network magic happen.

Innovative Pilot Products

AKRAINO

Our lab has been buzzing with activity, and we've cooked up some awesome pilot products:

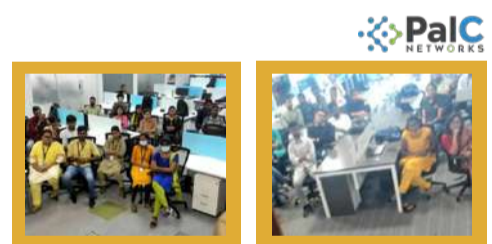

PaIVPN: Based out of an open-source version, this product is an implementation of the Layer 2 Tunneling Protocol as defined by RFC 2661.

AI-Based Log Analyzer: Because why sift through logs yourself when AI can do it for you?

PaIC-Predictive Hardware Maintenance solution: Your new best friend in predictive maintenance of hardware, brought to you through our LF-Edge Akraino community collaboration. The PaIC team is collaborating continuously with the community to bring out the best possible AI-driven product to optimize the hardware eco-system solutions.

Successful All-Hands Meeting

Our recent all-hands meeting was a hit! We covered business projections, objectives, and our mission for the financial year. Think of it as our company's strategy jam session, where we all got on the same page and prepared to rock the year ahead.

Exciting Collaborations in the Indian Sector

We're making waves in the Indian public sector with some critical projects that we'll reveal soon. Just know that big things are happening, and we can't wait to share the details. Keep your eyes peeled for announcements—exciting times are ahead!

Thank you for being part of our journey. We're pumped for what's next and thrilled to have you along for the ride.

Cheers,

PaIC Networks.
Marketing Team.

Stay tuned for more exciting updates, initiatives, and opportunities on the horizon.
Your journey with PaIC is just getting started!
